### WHY WOMEN GET DESPONDENT

Are not women naturally as light-hearted, brave and hopeful as men? Yes, certainly; but a woman's organism is essentially different from a man's—more delicate, more sensitive and more exacting. Women in delicate health are more dependent, more nervous, more irritable and more despondent. When a woman develops nervousness, sleeplessness, backaches, headaches, dragging-down pains and melancholia she should lose no time in giving Lydia E. Pinkham's Vegetable Compound a fair trial, as it will quickly dispel such troubles. This root and herb medicine contains no drugs and has been the standby of American womanhood for nearly fifty years.
